

Dynamic Spectrum Alliance Global Summit 2024

Michael Feldman, International Public Policy

Investments in Europe

60

cities with corporate offices

350

logistics sites across Europe

220,000+

permanent staff

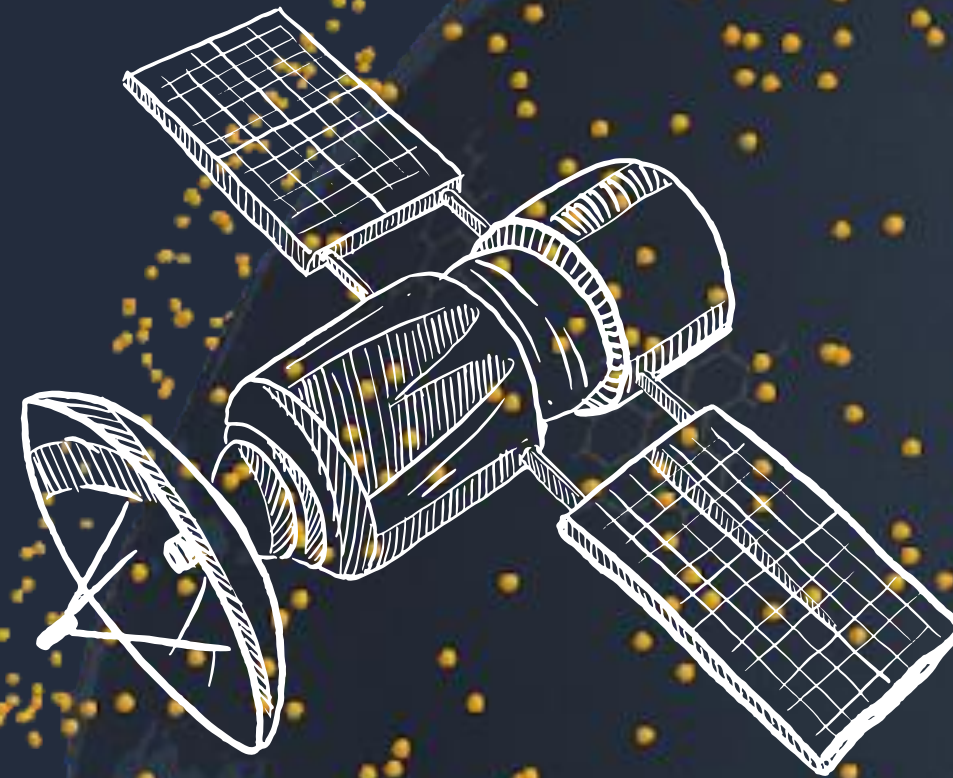

\$215 billion

total investment since
2010

Access to spectrum is essential for consumers and global innovation.

Spectrum sharing enables new innovative users and promotes competition.

Everything we do for consumers is built
on connectivity

kindle

eero
an amazon company

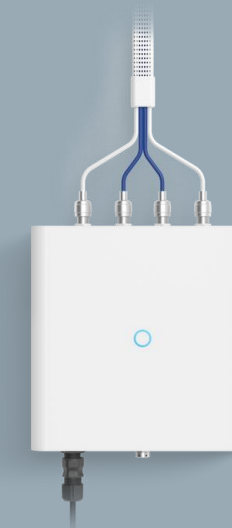

aws

fire

amazon alexa

amazon | project kuiper

Unlicensed
spectrum is
critical for
innovation

Innovative and dynamic spectrum sharing models enable efficient spectrum uses by a variety of stakeholders, including Amazon.

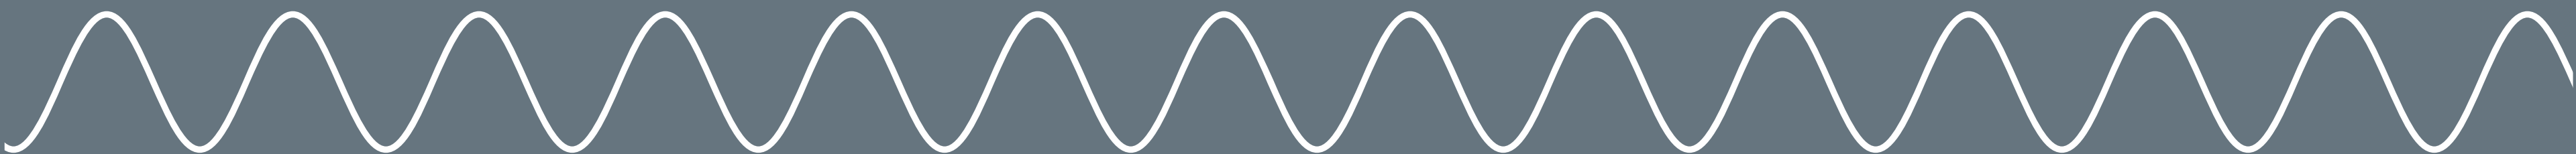

Incumbent Access

Priority Access License

Generalized Authorized Access

CBRS

**Next-generation
satellite systems
call for particular
emphasis and a
unique spectrum
strategy.**

What can regulators do?

Support global
harmonization of
spectrum bands

Promote efficient use
of spectrum and
coexistence
